## 7. Logistical Information

The following is not a complete list of logistical resources - for more information please refer to the Area Contingency Plan, Summary of Area Resources Chapter 6.

The subject headings which have an asterisk (\*) are being developed; please consult local DEM officials (phone numbers listed in the ACP) for specific information.

To submit data for this section, please use Comments/ Corrections/ Suggestions (Appendix C).

## 7.1. Logistical Support

The following list was compiled at the Lower Columbia River Geographic Response Plan Workshop held in Lower Columbia River on February 18, 1993. Areas of information include: command posts; communications; equipment cache locations; inventory of local support equipment; air support; access points to the Bay; and other pertinent logistical support.

| Subject       | Name                               | Characteristics  | Contact               | Phone # |
|---------------|------------------------------------|--|-----------------------|---------|
| Command Posts |                                    |  |                       |         |
|               | Large Local Motels                 | Meeting rooms available  | Chambers of Commerce  |         |
|               | County Fairgrounds                 | good option for<br>wildlife rehab<br>operation; good for<br>upriver spills                                   |                       |         |
|               | Tongue Point                       | excellent water access, staging, security  | Job Corps             |         |
